Chapter One		Page	Chapter Three		Page
Introduction, Material, Equipment and Specifications			New Construction		
Introduction		3	General Information		32
General Description and Design		4	Batten Spacing & Framing Build-Up		32
Gerard Tile		5	Rake, Ridge & Hip Framing Details		33 - 34
Canyon Shake		5	Valley Framing Details		35
Barrel Vault		5	Mansard, Flashing, Chimneys & Skylights		36
NB Tile		6	Vertical Wall & Parapet Wall Details		37
Gerard Mission Trim		6	Pipe & Flashing Details		38
Gerard Shake Cap		6	Ventilation Information		39
Gerard Metal Trim		7 - 9	Ridge & Attic Ventilation Details - Eave		39
Special Flashings		10	Ridge & Attic Ventilation Details - No Eave		40
Touch-up Kit		10	Steel Framing		41 - 42
Sealants and Paint		10	Gerard Panel Short Form Specifications		43 - 44
Battens		10			
Fasteners		10 - 11	Chapter Four		
Gerard Installation Kit		12	Re-Roofing & Special Installation Details		
Bender		12	Introduction		46
Bender Attachment		12	Preparation of the Existing Roof Cutback		47
Cutter		12	Installing New Framing for Gerard Panels Build-Up		48
Batten Spacers		12 - 13	Installing Gerard Valley Metal		49
Recommended Hand Tools		13	Installing 1" x 4" Counter Battens		50
"Aussie" Universal Interlocking 'J' Roof Mounting Bracket		14	Installing 2" x 2" Counter Battens		51 - 53
			Installing New Framing for Gerard Trim		54 - 55
			Installing Gerard Fascia Metal		56
			Loading Gerard Panels on the Roof		57
			Installing and Nailing Gerard Tile Panels		58 - 62
			Installing Valley and Hip Cut Sections		63 - 66
			Installing Ridge and Rake Cut Panels		67 - 69
			Installing Vent, Chimney and Skylight Flashings		70 - 72
			Installing Gerard Mission Trim		73 - 77
			Check Overall Installation		78
			Chapter Five		
			Special Installation Procedures		
			Helpful Hints, Treated Lumber, Galvalume Steel		80
			High Wind Details		81
			Gerard Tile Laying and Roofs with Gutters		82
			Rake and Roof-to-Wall Details		83
			Trimless Rake Detail		84
			Dutch Gables		85
			Vents		86
			Electrical		87
			Turbine Vents		88
			Attic Vents		89
			Short Valley and Water Diverters		90
			Severe Weather, Snow Areas, and Valley Details		91 - 92
			Support Panels for Heavy Traffic Areas		93
			Chapter Six		
			Technical Bulletins and Installation Requirements		95
Chapter Two					
Material Estimating and General Information					
Material Estimating Introduction, Gerard Tile		16			
Straight Gable Roof		16			
Hip Roof		17			
Complex Gable Roof with Hips and Valley		18			
Material Estimating Introduction, Gerard Barrel Vault		19			
Straight Gable Roof		19			
Hip Roof		20			
Complex Gable Roof with Hips and Valley		21			
Material Estimating Introduction, Gerard NB Tile		22			
Straight Gable Roof		22			
Hip Roof		23			
Complex Gable Roof with Hips and Valley		24			
Material Estimating Introduction, Gerard Canyon Shake		25			
Straight Gable Roof		25			
Hip Roof		26			
Complex Gable Roof with Hips and Valley		27			
Gerard Accessory Estimating		28			
Mission & Shake Trim		28			
Fascia, Valley & Z-Bar		28			
Mechanical Nailer		28

General Information		29			
Installation Labor		29			
Footwear		29			
Roof Traffic		29			
Handling		29			
Transporting & Storage		29			
Packaging		29			
Underlayments		29			
Re-Roofing 30 lb Felt		29			
New Construction 30 lb Felt		29			
Re-Roofing Class "B" Fire Rating		29			
Roof Pitch		30			
Building Codes		30			
Extreme Weather Conditions		30			
Wind Uplift		30			

Gerard assumes no liability for either incorrect installation of its products or personal injury that may occur as a result of installing such products. The installation methods demonstrated in these materials are not the only ways to install Gerard products, but have been developed as a reference guide using acceptable, tested and proven methods for the standard installation of Gerard products. Contractors and installers should at all times use their professional judgment, and modify and tailor such methods where appropriate or necessary to suit each specific installation or any applicable local building codes or ordinances. Due to the fact that Gerard has no control over the actual installation techniques used, no warranty is expressed or implied relating to installation of the product. Gerard's liability with respect to Gerard products is limited exclusively to its standard written limited lifetime warranty.
